## TERMS OF SUBSCRIPTION

One year.....\$12.50 Three months..... 3.50  
 Six months..... 7.50 One month..... 1.25  
 Subscriptions by mail must be paid for in advance.

**TEN DOLLAR REWARD**  
 A reward of \$10 will be paid for information that will lead to the arrest and conviction of parties stealing this Bonanza from premises of subscribers' office.

Entered at the Postoffice in Tonopah as second class matter.

## EDITORIAL COMMENT

## BODES WELL FOR COMING WEEK.

The tempestuous week in New York was succeeded by a calm yesterday which bodes well for the opening of the coming week. Money seemed to be coming from all quarters to the relief of the afflicted bankers and brokers, and the fact that the money powers have agreed to accept the issue of clearance certificates will make the need of money less, and ought to go a long way to easing the situation when the market opens tomorrow.

That the spread of the New York panic did not extend over the whole country is due to the prosperity of the country at large. In the middle West and the extreme West the crops were more plentiful than they have been for many years. In the days that have passed the banks throughout the country were in closer touch with Gotham than they are now. The banks in these days are helping their people at home and are loaning out their surplus to the farmers and institutions where they are located. They have no reserves in New York to speak of. So they were not called upon to ask for their money from the banks which were at one time tottering on the brink of financial ruin, and these Eastern banks had no call upon them. There was a little tightening up of the banks, but only to protect their depositors.

Nevada was the only State outside of New York that felt the bump of the onslaught on Wall street. The Eastern securities went to smash, and the Nevada stocks followed in sympathy. The situation in the East caused a tightening of the Anglo-Californian bank in San Francisco, which is a correspondent, or a branch, of the State Bank and Trust Company, and when the pinch came, the local bank had an overdraft. This was not an unusual thing, for if the State Bank and Trust Company was not in the red, there would have been, doubtless, a large sum to its credit. A draft from the Goldfield branch went to protest, and that started the move on the State Bank and Trust Company.

Had not the other banks closed by virtue of the Governor's proclamation, there would, in all probability, have been runs on some of them at least.

We have had three days of holiday, and tomorrow will be the beginning of another series of holidays, which is to last a week. It has been announced that the Tonopah Banking Corporation, the John S. Cook & Co., and the Rhyolite house of the latter—all the banks in southern Nevada controlled by Wingfield and Nixon, and the Nevada First National of Tonopah, will open tomorrow, as will all the banks in Reno. This will help the situation, and looks to be the best possible thing that could be done in the circumstances.

## AUGERS WELL FOR THE STATE.

A party of capitalists left Baltimore yesterday for Tonopah and will go from here to Ubehebe in their private car, the guests of Mr. John Salsberry. There is more than one moral to be pointed from this incident. While there are some people in this country bemoaning the conditions, Mr. Salsberry is up and doing. He has in Ubehebe, what has been pronounced by the best of mining experts, one of the greatest copper workings, for the development of which has been made, that is to be found anywhere in the country. The people who comprise the party are capitalists of the south, the east, and of Europe; This illustrates what this paper has always maintained, that if a man has the property that will land the test, he can secure plenty of money for its development. Further, the fact of the party coming here at this time, augurs well for the financial situation in the East, and proves that there is confidence in plenty in this country, and in the men of this country.

## LEFT WIFE FOR DISHWASHER.

**Famous Southern Beauty Brings Suit for Divorce.**

NEW YORK, Oct. 26.—A petition for absolute divorce has been filed in the supreme court by Mrs. Alleeta Thompson Benton, the famous southern beauty, against Lieutenant Commander Frederick L. Benton, friend of President Roosevelt. Benton was formerly attached to the Brooklyn naval hospital and is one of the most popular men in the naval surgery corps.

A dishwasher is named. She is Annie Grady. The indiscretions are alleged to have occurred on about

January 2, 1906, a few months after the wedding.

The petition does not reveal that Annie Grady was a dishwasher and waitress at the Brooklyn naval hospital while Lieutenant Commander Benton was stationed there, but Dr. Stuart H. Benton of Brooklyn, father of the defendant, says the young woman named is the dishwasher.

It comes put up in a collapsible tube with a nozzle, easy to apply to the soreness and inflammation, for any form of Piles; it soothes and heals, relieves the pain, itching and burning. Man Zile Pile Remedy. Price 50 cts. Guarantee.

## GUILTY OF MURDER IN SECOND DEGREE

GOLDFIELD, Oct. 26.—But a few minutes before midnight last night the jury in the Schwick murder case sitting before Judge Langan in the little court room in the temporary county building, returned a verdict finding the slayer of John Davy guilty of murder in the second degree.

Judge Langan, at the conclusion of the polling of the jury, fixed next Monday morning at 10 o'clock as the time for fixing sentence, which, upon such a verdict, may range from ten years to life imprisonment.

The final words of the court's instructions were with the jury at 7:30 o'clock last evening, the members of the deciding body retiring immediately thereafter to the deliberation room. For four hours the jurymen considered and debated. It is understood that at no time during the deliberations was there a vote registered for acquittal, a verdict being reached only by compromise. It is said that upon the first ballot there were recorded about an equal number of votes for manslaughter, murder in the second degree and murder in the first degree.

## SUCCUMBS TO PISTOL WOUND

GOLDFIELD, Oct. 26.—Mike Kennedy, the miner who was shot last Tuesday through the neck and arm by Mrs. Margaret Larsen, passed away at 7:30 o'clock this morning at the Miners' Union hospital. The remains are now resting at Dunn's undertaking parlors. Mrs. Larsen and her husband, Joseph Larsen, who figured in the affair, it being alleged that just prior to the shooting he was attacked by Kennedy, the latter using a knife, are confined in the county jail. There is considerable likelihood that the husband will be given his liberty after the coroner's inquest. Larsen has been employed at the Mohawk mine.

## SMILES WHEN ARRESTED.

**Pretty Nurse Is Accused of Stealing Gems.**

BERKELEY, Oct. 26.—While taking care of the two-year-old son of J. T. O'Brien, the Tonopah Millionaire, yesterday afternoon, Dorothy Stein, a pretty little Oakland nurse, is alleged to have purloined jewelry amounting to over \$350 in value, belonging to Miss Hazel Shoebridge, who resides at the O'Brien home, 3105 Telegraph avenue. This is the charge preferred against Miss Stein today by J. F. O'Brien and family.

Early yesterday afternoon O'Brien, who was going to Oakland accompanied by his wife and Miss Shoebridge, called Miss Stein by telephone to come and take care of his little son while he was absent from home. The girl, who lives at the Holland House, Oakland, immediately responded. O'Brien had engaged her several times prior to yesterday afternoon and had implicit faith in her.

When the O'Briens returned late last evening the girl and all of Miss Shoebridge's jewelry were missing. The Oakland police were immediately notified and they arrested Miss Stein in her room this morning as she was about to go out. She was wearing a bracelet and a pearl brooch which belonged to Miss Shoebridge. When taken before Captain of Police Petersen she is alleged to have stated that she only borrowed the bracelet and brooch, intending to return them to their owner, but denied the theft of the other articles.

She was later brought to the local police headquarters and closely questioned by the authorities, but she still persists in denying that she stole the articles as charged.

The accused girl is pretty and well appearing. Despite her arrest she is continually smiling and does not seem in the least concerned as to what her fate will be. She answers all questions put to her in an easy manner, showing her pretty teeth with a smile each time she speaks. She seems to be only about 17 or 18 years of age.

The articles which Miss Stein is alleged to have taken consist of a large diamond ring, valued at over \$150, a valuable gold bracelet, a pearl half-moon brooch, a pair of long, white kid gloves and \$5 in coin. The girl is confined in the county jail awaiting her arraignment, which will probably be held before Police Judge Edgar next Tuesday morning.

## THREE KILLED IN SUBWAY CRASH

LONDON, Oct. 26.—Three persons were killed and a dozen injured in a rear end collision today at the West Hampstead station of the Metropolitan underground railroad. This is the first accident of its kind since the London lines were electrified, when a system of electric signalling was installed. It also is said to be the first accident resulting in the death of a passenger, although three billion people have been carried since the opening of the road.

## WESTINGHOUSE IS GIVEN INJUNCTION

SAN FRANCISCO, Oct. 26.—United States Circuit Judge Morrow this morning granted an injunction at the request of the Westinghouse Electric Company and the Atha Steel Manufacturing Company of New Jersey to enjoin the creditors of the Westinghouse concern in Pennsylvania from attaching its assets in this State, which are valued at \$500,000.

## LOVES DAUGHTER OF BITTER RIVAL

SEATTLE, Oct. 26.—Todd Cowles, a pioneer mining man and attorney of Fairbanks, Alaska, came to Seattle last night expecting to marry Miss May de Journet, daughter of his most bitter legal rival in Fairbanks, but today Cowles found that Miss de Journet's relatives had sent her to San Francisco and Cowles started in pursuit.

Despite the bitter professional enmity between Cowles and her father, Miss de Journet became engaged to Cowles and her father sent her to Seattle in the hope of breaking off the match. Miss de Journet made the trip out in company with a former San Francisco man and his wife, but before she reached White Horse decided to notify Cowles. A telegram was sent him from that point and he started in pursuit. When de Journet learned of Cowles' departure he telegraphed a warning to Seattle and Miss de Journet was hurried away to San Francisco four days ago.

Miss de Journet has a fine contralto voice and her father insisted upon her cultivating it further, but friends here believe the Fairbanks romance will end in San Francisco. All the parties are prominent, Cowles having belonged to an old Olympia, Washington, family. His brother-in-law, Charles E. Claypool, who is also a law partner, was a former member of the Washington state senate.

## POWER PLAN LAYS OFF 1400 MEN

STOCKTON, Oct. 26.—Tonight information was received from Tuolumne county that 1400 men who had been employed by the Union Construction company in constructing the reservoirs, power plants and lines of the Stanislaus Power and Water company at Camp Relief, Tuolumne county, were laid off indefinitely this afternoon. The reason given was the failure of the Knickerbocker Trust company of New York, which was supplying the capital for the Union Construction company.

The firm, which has extensively engaged in construction work, has a contract for doing about \$10,000,000 worth of work for the Stanislaus Power and Water company, and the sudden shut down came as a great surprise. Already over \$3,000,000 worth of work has been performed, and it was expected that the project would be carried to completion at once. The company is incorporated for the full \$10,000,000 and has been operating on an extensive scale.

The order to stop work was received today and money was sent to Camp Relief to pay off all the men at once. Only a few watchmen to look after the partially finished plant and reservoirs will be retained. No one connected with the company at the camp could give any idea of when work would be resumed.

Journals, cash books and ledgers—just the thing the merchant needs—best that can be made. For sale at the Bonanza office.

## WANTS ROOSEVELT FOR THIRD TERM

(Associated Press.)  
 CHICAGO, Oct. 26.—The delegates to the 48th conference in session here halted in their work long enough today to express a preference for presidential candidates. The majority is overwhelming for Roosevelt, the representatives from every state insisting that the condition of the country demands that he remain at the helm until he has worked out the great reforms he has started.

Admiration for the aggressive executive and third-term sentiment were said by these delegates, coming from all sections of the country, to be growing in magnitude all the time and could not be passed over lightly. Taft is the only second choice mentioned, and he does not appear very strong in comparison for the demand for Roosevelt.

The western and southwestern democrats are for Bryan. None of the delegates would talk seriously of Fairbanks, and they did not consider Foraker, Root, La Follette or other aspirants as being in the race.

## TRAVELERS CHEAT MISSOURI ROADS

CHICAGO, Oct. 26.—The railroads in Missouri are alarmed over losses in passenger revenues which they say are due to the wholesale dishonesty of the traveling public, due to the fact that passenger fares in Missouri are the same whether a ticket is purchased on trains or at the station.

The roads declare that 34 per cent of the people who ride in Missouri get on trains without purchasing tickets. As a result the roads not only have the element of dishonesty in some of their conductors to put up with, but also the dishonesty of the passenger. A favorite method of Missouri's dishonest passengers, it is stated, is first to try to have the conductor "ship" them. Failing in this the conductor may be approached to see how much he will compromise for. If this also proves a failure, the passenger may pay to the next station, and if the conductor finds him again, keep on paying. If not, he is ahead of the game.

## WON'T PAY GROCER.

**New York Grocer Says Mrs. Havemeyer Owes \$715.**

NEW YORK, Oct. 26.—Mrs. Emile De Loosy Havemeyer, widow of Theodore A. Havemeyer, the multi-millionaire sugar king, won't pay her grocer's and butcher's bills, and the grocer, disheartened by her refusal to pay up, is suing her in the supreme court.

"She had the best in the store," said David Werdeschlag, at his grocery today. "When the bill reached \$715, and I was unable to collect it, I put the claim in the hands of my attorney."

Mrs. Havemeyer is now in Paris, France, and as the grocer's attorney was unable to serve personal notice on her, the notice was served by publication.

"She is too forgetful and I am not going to pay any more bills," H. O. Havemeyer, Jr., is reported to have said, and there the matter stands.

## DROWNED IN MAINE.

MILLINOCK, Me., Oct. 26.—It is reported that from thirty to fifty Italians employed by the Great Northern Paper Company have been drowned near the company's plant, five miles from here.

## BIG STRIKE IN CUBA.

HAVANA, Oct. 26.—In labor circles, where unrest has prevailed for some weeks, the statement is made that plans have been completed for a general strike beginning on next Monday.

## SEPARATE STATEHOOD.

WASHINGTON, Oct. 26.—President Roosevelt announced through Senator Flint of California today that he will use his influence for separate statehood for Arizona and New Mexico.

## SHOSHONE MILL IN FINE CONDITION

**BYRCE TURNER BRINGS GOOD REPORT FROM BEATTY PLANT.**

Bryce W. Turner, general manager of the Montgomery Shoshone, came up from Beatty last night, and has the best of reports for the performance of the new mill.

"The mill," said he, "has been in operation for thirty days, and is working with most excellent results. At the present time, we are only running two shifts, but will put on in the immediate future another shift. The mill will then be running to its full capacity, which will mean three hundred tons a day. The saving on the ore has proved very satisfactory, being in the neighborhood of 90 per cent."

"Shipments have been going out at the rate of from forty to fifty tons a day. The main three-compartment shaft is down to a depth of eighty feet below the 500 level. The country rock through which we are sinking shows evidence of sulphides."

"The district of Bullfrog, while the town is very quiet, as a whole looks very promising. The Homestake is putting in a 20-stamp mill, which should be in operation in three or four months. The Gold Bar is also putting in a mill. There is great activity shown in the adjoining properties of Montgomery Shoshone. The Amethyst, Providence and the Lucky Jack mining companies are all sinking and their shafts are going down for depth. The reports from the Tramps are also very encouraging."

## GIRL AS SWITCHMAN.

**Believes Mr. Harriman Would Give Her Situation.**

SAN FRANCISCO, Oct. 26.—Helen Moyer, a pretty young woman, wants to be a switchman. She applied for such a position today at the office of E. P. Anthony, assistant superintendent of the Southern Pacific.

"I want a position as switchman for the Southern Pacific company," she said to Anthony. And superintendent, clerks and office boy alike stared in surprise.

Anthony gulped. He started to speak but only an articulate sound was the result. Then he found his voice.

"Why—why, you don't want that kind of a position; you—"

"Yes, please; I want to tend the Bernal switch out beyond the mission."

E. P. Anthony studied the girl for a moment. Then he reached out and solemnly shook hands with her.

"My girl," he said, "if I had the backbone about me that you have I'd give you the job. But the girl who has the nerve to go after a position of this kind will have some position, even if I have to create one for her."

"There is a long switch right up here on the track," Miss Moyer said, "and the freight trains are switched in there to let the passenger trains pass. The switchman has to be at his post only from 6 to 10 in the morning and from 4 to 7 in the afternoon. I could have so much time to study."

"For what do you intend to prepare yourself?" the girl was asked.

"I am going to be a pharmacist," she answered, "but I'd rather be a brakeman."

"But that's impossible."

"Then I wish Mr. Harriman would come to town," she burst out.

"I'd ask him, and I'd wager I'd get the job."
